October is National Domestic Violence Awareness Month. During this month, we take time to remember, honor and mourn victims who have paid the ultimate price: losing their lives at the hands of their abuser. Join prevention advocates as we light a candle for each of our Georgia neighbors who have been a casualty of domestic violence during the past year. The vigil will also include courageous testimonies from survivors and an inspiring call to action for you to join the fight to stop domestic violence once and for all!
